

Project Tutor provides the corporate user with an unbeatable way to learn Microsoft Project. What's more, there are two licensing options available; Per-User and Open licenses. Just choose which licensing option suits you best. All corporate licenses are perpetual (i.e. they are not time-limited).

Per-User licensing	With this licensing option, each registered user has a perpetual non-transferrable license to use Project Tutor when, how and where they want.	
	Number of user licenses	Project Tutor Professional Cost per user license
	10-29	US\$40
	30-99	US\$35
	100+	US\$30
Open licensing	With this licensing option you purchase a set number of user licenses. These licenses are transferable, so when a user no longer needs to use Project Tutor, their license can be transferred to another user in your organization.	
	Number of user licenses	Project Tutor Professional Cost per user license (plus GST)
	10-29	US\$40
	30-99	US\$35
	100+	US\$30

Licensing A license is required for each individual who will access Project Tutor.
